

**Goshen Planning Board**  
Anderson and Davis Pit Annual Site Reviews  
22 October 2016  
**FINAL**

Members present: Alicea Bursey (Chair); Doug O'Clair (Vice Chair); Fred Smith.  
*Others:* Dick Fraser, Nicholas Hebert

Annual site visit/inspection of the Anderson and Davis pits called to order at 9:03am.

**Item #1: Anderson Pit Review**

The group met at the Anderson Pit and viewed the phase two progress and reclaimed areas. Reclaimed areas are growing grass and additional drainage has been installed to help mitigate erosion issues caused by heavy rains.

The board members inspected the pit and received updates on life span of the pit; with existing materials and demand the pit may have a life of another 5 – 7 years.

**Item #2: Davis Pit Review**

Also inspected was the Davis Pit; reclamation has occurred here as well since the last site visit specifically in the areas abutting the Bridge property. There is currently equipment in the pit, however, it is expected that will be removed for the winter.

The Board found no areas of concern.

Doug O'Clair made a motion to accept the conditions of the Anderson and Davis Pits, Fred Smith seconded, all were in favor, motion approved.

Doug O'Clair made a motion to adjourn; Fred Smith seconded the motion, all in favor. Inspection adjourned at 9:32am.
