

**On September 1, 2007 Cynthia R. Phillips started her next chapter as the librarian at Olive Pettis Library. She had a vision to make this one room library the center of our community. For thirteen years she committed herself through hard work and countless hours to make this vision a reality. Her enthusiasm and dedication has brought many through the doors of our little library.**

**From preschoolers to college graduates, Cynthia has inspired students to work hard, dream big, believe in themselves and achieve their goals. Programs ranged from Preschool Story Time to After-school STEM, Teen Council and Summer Reading Camp.**

**The older generation has also benefited from Cynthia's efforts, with DIY Projects, two reading groups and educational classes.**

**This is just a small example of her commitment to this community.**

**It is with mixed emotions that Cynthia has decided to retire and relocate. She will be handing over the reins to someone else. She will be greatly missed.**

**We invite you to wish her well on the next chapter of her life, by stopping by the library this week or sending her a card.**

**We are grateful to have made this journey with her.**
