

Planning Board
Meeting Minutes
Davis and Anderson Pit site review
21 Septmber 2013

Attendance: Doug O'Clair, Alicea Bursey, Ed Peckham
Others: Shaun Carroll, Jr.

The shortened timeline and changes to the eskar were reviewed by the planning board at the site visit. During the site visit the planning board approved of the shortened timeline and moving up the timeline on already planned excavation on the eskar. The Anderson pit was originally planned to be up to 5 years and will is now expected to be less. Davis pit will be worked until frozen (possibly November). There is only a small pile of sand left and then reclaiming will begin. The Davis pit may only be open for a few more years. A brief discussion of the possible future of the pits concluded the site visit
