

Conservation Committee Minutes Thursday June 16, 2022

Attendance: Michelle Roy, Scott Warnock, Mike Adams.

1. Gunnison Lake Trail & Bridge Work

The bridges are moving along in terms of being rebuilt. Both should be done by the end of July. Scott and Michelle will be taking measurements and noting areas where there needs to be rerouting or logs placed due to water/streams.

2. Hike to Lead Mine Trail

Met with the Library trustees about putting on a hike to and a talk regarding the Lead Mine in Goshen. We have a tentative date of October 1 2022 with a rain date of October 8. Received a great deal of support from Bea through the historical society on the lead mine trail and the history of old home day walks.

3. Nature fest backpacks: 5 backpacks were donated to the library and will be shared at this year's Naturefest.
